The House having considered the same, came to the following Resolution:

WHEREAS the Council and Assembly, by a Resolution of the 30th of *April* last, did provide, that *Enos Kelsey*, Esquire, Commissioner of Cloathing for this State, furnish to each Officer, who, at the Time of the late Arrangement of the Brigade of this State, in the Service of the United States, did belong, and for one Year previous thereto, had belonged to the said Brigade, Cloathing to the Amount of *Two Hundred Pounds*, certain Deductions being made.

And whereas the Settlement of certain Accounts, mentioned in the said Resolution, will be attended with Delay; and a Part of the said Brigade being under immediate marching Orders;

*Resolved,*

That the Settlement of the Accounts of such as are under the Necessity of marching immediately, be postponed for the present; and that the said *Enos Kelsey* pay to them the said *Two Hundred Pounds* each, on Account of Cloathing, reserving such Settlement to a future Occasion.

And whereas by a Resolution of the 23d Day of *April* last, the Troops of this State are to be furnished with certain Articles for their more comfortable Subsistence, which cannot be immediately procured and issued: Therefore,

*Resolved,*

That there be paid to each non-commission Officer and Private, belonging to the said Brigade, the Sum of *Forty Dollars*; to be accounted for when the Articles, in the said Resolution mentioned, are provided and forwarded to the said Brigade; and that the said *Enos Kelsey* employ a proper Person to pay to each non-commission Officer and Private, out of any Money which may remain in his the said *Enos Kelsey's* Hands, the aforesaid Sum, and take his Receipt for the same.

*Ordered,*

That Mr. *Manning* and Mr. *J. Schenck* wait on the Council, and desire their Concurrence.

Mr. *Houfson*, from the Committee appointed for that Purpose, reported the Draught of a Representation to Congress, upon the Reports of the Committees of Conference appointed on the 22d and 26th of *April* last; which was read and approved, as follows:

*To the UNITED STATES in CONGRESS assembled.*

The REPRESENTATION of the State of *New-Jersey*,

*Sheweth,*

THAT we are fully convinced the Circumstances of the Times render a further Provision for the Subsistence and Comfort of the Army of the United States indispensably necessary; but are of Opinion the Mode adopting to effect this Purpose, is very improper, and will be productive of injurious Consequences. The several States are each forming a separate Plan of supplying their own Troops with such Necessaries as they think most advisable, nearly at the Prices current when the Army was established; and stipulating in their Favour such other Privileges and Advantages as may, in a considerable Degree, make good the Contract under which they entered the Service at the Commencement of the War. These Regulations, various, unequally advantageous, and formed upon different Principles, must, in their Practice and Operation, produce Discontents, Murmurings, and per-

haps still worse Effects; Resignations among the Officers, and Desertion among the Men.

Further, while each State thus supports a System of its own, the whole Expence is greatly and unnecessarily encreased; for although it be paid by the States separately, and not out of the continental Treasury, it is still a general Expence; and the Wages, which each State must pay on purchasing for, and issuing to their respective Troops, would be double or treble their Proportion of the Sum, which would procure the Whole purchased and issued to the Army at large, if a Provision were made by Congress.

We would also suggest the exceeding Difficulty under which this State must labour, in carrying their Part of this divided Mode of Supply into Execution. The Means of Importation are not in our Power; and Purchases on the Continent must be made at a Distance, and under every other Disadvantage. To the Congress these Things would be more practicable. In many Cases only a greater Quantity of the same Articles would be necessary, and they might be procured in the same Line, in which the Army is now supplied.

Every Expence which may be necessary for the Comfort and Supply of those who devote themselves to the publick Service, we are cheerfully willing, to the utmost of our Proportion, to defray; but mean not to recommend, or even approve in the slightest Degree, any Kind of Establishment, or particular Emoluments for Life: These, to say Nothing more, were no Part of the original Contract; they cannot be demanded or hoped for on any equitable Principles.

By a Resolution of Congress of the 15th of *March* last, all Officers, non-commission Officers and Soldiers, now belonging to the Corps of Light Dragoons, and Artillery and Infantry, and the Corps of Artillery Artificers already commissioned and enlisted, or to be commissioned and enlisted, not being Part of the eighty-eight Battalions, are to be considered as Parts of the Quotas of the several States to which they belonged or may belong, when commissioned or enlisted, and credited accordingly. Part of two Regiments of Horse, one now in the Eastern States, the other in *Pennsylvania*; two Companies of Artillery at separate Posts; Part of two of the sixteen additional Regiments, now in different Stations, beside Artillery Artificers employed at different Places, were commissioned or enlisted from this State. If we are credited with these, it will by them be expected, that we provide for them; if it is not done, the Officers will resign, and the Privates desert; and to do it, seems absolutely impracticable upon any particular State-System: And even supposing it possible, the Transportation, and Wages which must be given for procuring it, done at so many different Posts, would be out of all usual Proportion to the Value of the Articles supplied.

For the above Reasons, with many others, with which we think it unnecessary to detain Congress, we earnestly entreat, that they would adopt a Mode of making such further Provision for the Army, as they may think just and adequate; a Mode, which, by comprehending the Whole, will remove all Danger of partial Distinctions; which will be less difficult, less expensive than the Mode excepted against; and which will produce that Satisfaction, without which the Service can never be generally agreeable to those engaged in it, or fully beneficial to the Nation.

*Ordered,*

That the same be transcribed, signed, and forwarded immediately.

THAT the Committees of both Houſes had met in Conference, and agreed to a Report, which he was ready to make, whenever the Houſe will pleaſe to receive it;

*Ordered,*

That the ſaid Report be made immediately:

Whereupon Mr. *J. Schenck* reported the Proceedings of the Conference, as follows:

*To the UNITED STATES in CONGRESS aſſembled.*

*The REPRESENTATION and PETITION of the Legislative-Council and General Aſſembly of the State of New-Jerſey,*

*Sherweth,*

THAT by a Reſolution of Congress of the 9th Day of *March* laſt, the Infantry of the United States is directed to be compoſed, for  
the

the ensuing Campaign, of eighty Battalions; that the several States are therein required to make up and compleat their respective Battalions to their full Complement by Draughts, or in such other Manner as they may think proper; and that they have their Quotas of Deficiencies ready to take the Field, and to march to such Place as the Commander in Chief shall direct, without Delay.

That by a Resolution passed in the Month of *December*, 1777, it is recommended to the several States, to supply the Officers of their respective Troops with fundry Articles of Cloathing, at certain Rates.

That the Legislature of this State are taking the necessary Measures to comply with the Requisition above-mentioned; and have already in Part furnished Cloathing to the Officers of the Regiments belonging to the Brigade of the State, as recommended.

But they find themselves greatly at a Loss, from any Communication made to them by Congress, to ascertain precisely what is intended by their Quota of Troops, in the Service of the United States.

For that by a Resolution of Congress, respecting the Legion raised by the Count *Pulaski*, such Recruits as have been, or may be enlisted for the same, in this State, are to be credited to the Quota thereof; and by one other Resolution of the 15th of *March* last, 'All Officers, non-commission Officers and Soldiers, now belonging to the Corps of Light Dragoons, and Artillery and Infantry, and the Corps of Artillery Artificers, not being Part of the eighty-eight (now eighty) Battalions, apportioned to the States, be considered as Parts of the Quotas of the several States to which they belonged, when commissioned or enlisted.'

It is therefore their Desire and Petition that Congress will order them the necessary Information, in what Manner the Credit above-mentioned is to be made; whether they are to look upon the Parts of the Corps mentioned in the above Resolutions, which have been raised in this State, or any particular Kind of them, as to be reckoned in compleating their three Regiments of Infantry to the Establishment of *May* 27, 1778; and also, that the Returns directed by the Resolution of the 15th of *March* last, from one or two Regiments excepted, none of which they have yet received, be made as early as the Nature of the Case will possibly admit, inasmuch as at the present Season of the Year, the Legislature cannot long continue sitting; and further would request, that Congress will pay the earliest Attention to the Representation lately made in Behalf of this State, on the Subject of providing for the better Subsistence of the Army, which they cannot but consider as a Matter of the highest Moment, not to this State only, but to the Union in general.

On the Question, Whether the House agrees thereto? It passed in the Affirmative.

*Ordered,*

That the Speaker sign the same in Behalf of the House.

Mr. *J. Schenck* further reported, that in Consideration of the Necessity of an early Return from Congress, on the Subject of the said Representation, it is the Opinion of this Committee, that it will be necessary a Member from each House be appointed to proceed to Congress with the same: To which the House agreed.

*Ordered,*

That the further Consideration of the said Bill be deferred.

Mr. Speaker and the House withdrew to attend a Joint-Meeting; and being returned, Mr. Speaker resumed the Chair.

WHEREAS this House, in Compliance with the Voices of their Constituents, and the Dictates of their own Consciences, did, on the 10th Inst. appoint a Committee to join with a Committee of the Council in a free Conference on the Propriety and Necessity of a Representation to Congress on the Subject of the Depreciation of the Bills of Credit emitted by the Congress of the United States, and the Expediency of a Regulation and Limitation of Prices throughout the United States: And whereas the Council have declined to appoint a Committee for that Purpose, because a Bill, for reducing the high Prices of Provisions, passed by Council, and now pending in this House, hath not yet, through Want of Time, been finally determined on by this House: Therefore, deeply impressed with the Necessity of the Measure, and in Discharge of their Duty to their Constituents and themselves, it is resolved that the following Representation be forwarded to Congress on Behalf of the State.

TO THE UNITED STATES IN CONGRESS ASSEMBLED.

*The REPRESENTATION of the LEGISLATIVE-COUNCIL and GENERAL ASSEMBLY of the State of New-Jersey, on Behalf of the said State,*

*Sheweth,*

THAT amidst the promising Prospects of a happy Issue of the present War, and of the Establishment of the Freedom and Independence of the United States sovereign and uncontrouled, we feel the most painful Anxieties from the State of the continental Finance, which threatens not only Embarrassment and Confusion to the publick Measures, but even in some Respects Destruction to our best Hopes.

In a Crisis so alarming it becomes Freemen not to consume the Occasion in unavailing Murmurings and Complaints, whatever just Reasons they may have, but to interest themselves in devising Means to remedy the publick Grievances, and avert the Dangers which impend; we mean not therefore to detain upon the Causes to which the great and growing Depreciation of the Bills of Credit of the United States is to be ascribed, but to express our Sense of the Necessity of immediately checking the increasing Mischief, and of restoring and fixing the publick Credit, and humbly to offer our Ideas on the most advisable Measures for effecting these essential Purposes. If we measure for a Year to come from the Events of a few Months past, the Conviction is unavoidable, that Prices and publick Debts will rise above the Reach of common Computation, or rather perhaps that the Currency will cease to circulate, the Chain which holds the publick Movements together be dissolved, and the Bills sink in the Hands of such as unfortunately hold them at the Period of Failure;

Failure; or should this not be the Case, the Community must be greatly oppressed in redeeming a Medium disproportionately, and in too many Instances, from Appearances, unjustly distributed among the Members of it.

To avoid Consequences so disastrous, and not less certain, it is our earnest Request that, if possible, a Stop be put to further Emissions of Paper Money, and that, as far as Prudence will justify, a publick Declaration be made to this Effect, for the Assurance of the People; this, we conceive, would lay some Controul on the Depreciation as far as the Value of the Money is concerned, and would have a like good Effect upon the Credit.

Publick Loans are precarious, would probably be Inadequate, and are at best but an unfavourable Way of raising Supplies, but may be necessary at this Time, and if placed on such a Footing as to command, in the present Exigency, considerable Sums, even at a large Premium, may have a beneficial Effect, being preferable to Emissions in Addition to the Quantity of circulating Cash.

Taxation we beg Leave to consider as the most natural and advantageous Source from which to derive the Means of defraying the current Expences, and Taxes will be paid in this State with the utmost Chearfulness if Prices can be checked and confined to any moderate Standard, and the publick Departments regulated by a System which will prevent them from creating Expence for the Sake of paying it.

In Addition to the above, and which we must hope would give Efficacy and Success to the Whole, we cannot help urging the Expediency and even Necessity of a Limitation of Prices throughout the United States, and as comprehensive as the Nature of the Case will possibly admit: The Conjunction is favourable. We wish Congress to form and recommend the Plan, accompanied with other publick Measures, which ought to accompany it, as well as it them, it cannot fail of essential Service: It will scarcely be practically opposed by any, those excepted whose private Interests are inconsistent with the Publick, and militate against them; and whatever speculative Reasoners may pretend to deduce in Theory, there are Conjunctions in the State of Government when such Measures are practicable and necessary. We conceive the present to be one: We are far from wishing the Prices should be carried down from this present Tenor at once, or in a precipitate Gradation, but rather that they slowly diminish at stated Periods, and at small Differences, until the Quantity of Money be reduced by Taxation to what is necessary for a circulating Medium. In this Way we would hope a necessary Degree of Trade might still be secured, and Speculation, Monopoly, Engrossing, Sharping and Extortion, with others the numerous Evils of that Class, would be effectually corrected and prevented. That the Execution of such a Measure will be attended with much Labour and Difficulty is not denied, but that its Advantages over every other Means of Relief in the present Exigency will more than counterbalance the Difficulties attending it, is clearly contended.

We earnestly entreat Congress will take the Premises into their deliberate Consideration, and, in such Way as they may deem expedient and adequate, provide for the publick Security; in promoting which, this State will ever deem it their incumbent Duty to exert themselves to the Utmost.

*Ordered,*

That Mr. *Wilson* and Mr. *Chambers* wait on the Council with the said Resolution and Representation, for Concurrence.

Mr. *Wilson* reported, that Mr. *Chambers* and himself delivered the Message with them entrusted, to the President in Council.

Whereas many and great Complaints are daily made against sundry Officers and others employed in the Commissary, Quartermaster, Hospital and other publick Departments of the United States, and great Uneasiness subsists among the People, respecting their Conduct, and the Application of the publick Money.

And whereas it is essentially necessary, that proper Measures be devised, both to do Justice to the Community, by punishing and preventing, as far as possible, every Practice which has a Tendency to encrease the publick Burdens, and also to rescue the faithful Servants of the Publick from that indiscriminating Censure, which the bad and unworthy bring upon all.

And whereas no adequate Means have been hitherto adopted for examining and ascertaining Charges made against Delinquents of the above Description, there being no ready and available Mode of collecting Evidence, and laying the same before proper Authority, where the accused may be heard, and punished or acquitted as his Conduct, on proper Examination, may be found to deserve:

*Resolved, therefore,*

That the Members of the Council and Assembly in the several Counties, diligently enquire into the Conduct of all Officers and others employed as aforesaid; that they collect all such authentic Evidences and Documents as they may be able to procure on that Behalf; and that they transmit the same to Congress, or to such Board or Committee as may by them be vested with due Power, or to the Executive Authority of the State, in Cases where the same may be competent, in order that strict Justice may be done to all concerned.

*Resolved,*

That it be earnestly recommended to the several Justices of the Peace, throughout the State, to take and authenticate all such Evidence as may be offered them, or which they may be able to obtain, respecting the Conduct of the Officers and others employed as aforesaid, and transmit the same to the Members of the Legislature, for the above Purpose.

*Ordered,*

That Mr. *Foster* and Mr. *Smock* do carry the said Resolutions to the Council, for Concurrence.

That they have examined the Account of *David Thompson*, Esquire, as Paymaster for the nine Months Recruits, for the County of *Morris*, with the Vouchers produced in Support of the same, and find a Balance amounting

amounting to *Nineteen Hundred and Fifty-nine Pounds, Seven Shillings and Three Farthings*, due from the State to the said *David Thompson*.

THAT by the Act, intituled, *An Act to embody, for a limited Time, One Thousand of the Militia of this State, for the Defence of the Frontiers thereof*, it is directed "That the said Troops be stationed in just Proportion on the exposed Parts of the Frontiers, so as to afford the most beneficial and equal Protection to every Part thereof;" notwithstanding which, this House are informed that eight Companies of said Regiment are stationed in the Counties of *Essex* and *Middlesex*, seven of which are said to be in *Essex*, by which Means no more than three Companies are left for the Defence of the Counties of *Bergen* and *Monmouth*, the other Company being stationed in *Suffex*; that when the said Law passed, by the best Information this House could obtain, it appeared that the County of *Bergen* was more, and the County of *Monmouth* nearly as much exposed as the County of *Essex*; that although *Bergen* may have been in some Measure relieved by the Division of the Army under the Command of Lord *Stirling* being stationed in that County, yet the

The GOVERNOR's Answer to the Representation of the General Assembly, directed to the Governor and Privy-Council, and dated the 21st Instant, *September*.

GENTLEMEN,

THE Privy-Council has had no Agency relative to the State Regiment, except in the three following Instances;

1st. That of allotting it to the Counties of *Bergen, Essex, Middlesex* and *Monmouth*, in the following Proportions, *viz.* to *Bergen*, Two Hundred and Fifty-five Men; to the *Essex* Post, Four Hundred and Forty-five Men; and, to *Monmouth* Three Hundred Men.

2d. Of directing the Quota raised by the County of *Suffex*, to be stationed in that County; and,

3d. Of appointing Lieutenant-Colonel *Taylor* (after Colonel *Neilson* and Colonel *Frelinghuysen* had been successively appointed, and had both refused to accept the Command) as an Assistant to Colonel *Frelinghuysen*, from the additional Duties attending the Post at *Elizabeth-Town*, on Account of the Flags, and his being obliged to visit the other Posts, as Commandant of the whole Regiment, which Appointment was made from the critical Exigency of Affairs, and in Confidence that the Legislature would at their present Sitting, provide for his Pay and Allowance as a Lieutenant-Colonel, and if not, those Officers were to be at Liberty to retire; and which has eventually appeared to be a fortunate Measure, as Colonel *Frelinghuysen* has not, by Reason of his ill State of Health, been able to take the Command.

That eight Companies of the Regiment are stationed in the Counties of *Essex* and *Middlesex*, and seven of those Companies in *Essex*, as mentioned in the Representation of the Honourable House, is neither in Consequence of any Order from the Governor, nor did ever come to his Knowledge till he received the said Representation; and which, if true, and unless the said Companies are particularly deficient in their Number of Men, or particularly likely, appears to him as unequal a Distribution as it doth to the Honourable House; and for their Satisfaction therein, he will either write to the commanding Officer on the Subject or (if the House prefers that Mode of Enquiry) will order him to attend at this Place, for the fuller Explanation of his Conduct, which, from Colonel *Taylor*'s known Character for Prudence and Impartiality, the Governor has Reason to think will meet with their Approbation.—In the

mean Time the Governor will be ready to produce Copies of all his Letters to the Officers at the different Posts, and their Letters to him, relative to the State Regiment, to a Committee of the House, whenever the Assembly shall think proper to appoint one for that Purpose.

*Trenton, September 23, 1779.*

WIL. LIVINGSTON.

*Privy-Council, September 27th, 1779.*

His Excellency the Governor having laid the Representation of the Honourable House of Assembly relative to the stationing the State Regiment before the Board, the Council advised His Excellency to answer it, which he accordingly did, and the Board do now agree to the above Answer, as far as respects themselves.

*By Order of Council,*

*Resolved unanimously,*

That the said Charter or Instrument of Writing is not warranted by Law, and therefore void.

*Resolved unanimously,*

That the Power of granting Patents and Charters of Incorporation, under the present Constitution, is vested solely in the Legislature of the State.

The House met.

Mr. *Wilson* reported, that Mr. *P. Schenck* and himself had delivered the Message with them entrusted to Mr. *Cooper*, one of the Members of the Council, the Council not sitting.

Agreeably to the Order of the Day, the House resolved itself into a Committee of the Whole, to devise Ways and Means for making a proper Estimate of the Damages done by the Enemy, as well as by the  
*American*

*American Army* in the several Parts of the State; and, after some Time spent therein, Mr. Speaker resumed the Chair, and Mr. *Clark*, Chairman of the Committee, reported, that the Committee had made some Progress in the Business to them referred, and requested Leave to sit again; to which the House agreed.

The House adjourned till To-morrow Morning, nine o'Clock.

*Thursday, September 30, 1779.*

The House met.

Mr. *Ewing*, from the Committee appointed for that Purpose, reported the Draught of a Representation to Congress; and likewise of a Circular Letter to the Legislatures of the neighbouring States, which was read as follows:

*To the UNITED STATES in CONGRESS ASSEMBLED.*

The REPRESENTATION of the LEGISLATIVE-COUNCIL and GENERAL ASSEMBLY of the STATE of NEW-JERSEY, in Behalf of the said STATE,

*Sheweth,*

THAT, amidst the promising Prospects of an happy Issue of the present War, and of the Establishment of the glorious Freedom and Independence of these United States, we feel the most painful Anxieties from the State of the Continental Finances, which threatens not only Embarrassment but Ruin to the publick Measures.

In a Crisis so alarming, it becomes Freemen not to consume their Time in unavailing Murmurings and Complaints, but to interest themselves in devising Means to remedy the Grievance, and if possible avert the impending Mischiefs: We do not mean to detain Congress upon the Causes to which the great and growing Depreciation of our Paper Currency is to be ascribed, but to express our Sense of the Necessity of immediately adopting Measures to check the increasing Evil, and for restoring and rendering permanent the publick Credit.

If we calculate for a Year to come, from the Events of a few Months past, the Increase of Prices and publick Debts must appear truly alarming; the latter perhaps will exceed the Reach of common Computation, and the former rise to the utter Destruction of our Paper Currency.—The Money ceasing to circulate, and perishing in the Hands of the unfortunate Possessors, all Business must necessarily stagnate for Want of a circulating Medium, and the inevitable Ruin of Multitudes, if not of these United States, take Place. To avoid Evils so truly deplorable, we conceive that every possible Exertion ought to be made; and that Nothing short of a Regulation of Prices generally adopted, and effectually carried into Execution, will prove sufficient.

As to the Impracticability of this Measure, so much urged by Speculators, Monopolizers, and others, whose Minds are vitiated and poisoned by similar Views of unreasonable Gain, and those who wish to ruin our Money, in order to conquer us in that Way, it has not the smallest Degree of Weight with us; because we are very clear that it does not exist. If the Measure is practicable in one State, it is also in another, and of Course may be carried through the Union; and that it is practicable in one State we are sure, because it has been adopted and carried into Execution in the State we have the Honour to represent; and indeed we most sincerely

cerely lament the Part some of the other States acted on this very interesting and important Occasion; had they come into the Regulation when this State did, and persevered in it as faithfully as this State would have done, our Affairs would probably have worn a very different Aspect from what they now do, and the Debt with which we are saddled, not have exceeded one tenth Part of what it is.

If then all other Measures, however wise and salutary, will prove insufficient to work the Salvation of our Currency, without a Regulation of Prices to compel the disaffected and avaricious to conform to what is equitable and consistent with the publick Safety, and if this Regulation, in order to answer the End proposed, should be general and uniform, we conceive that in order to be so, it ought to originate with Congress, and be thence diffused through the Union. Was it to take its Rise in any other Quarter, its being either general or uniform could hardly be expected: If your Honourable Body take the Matter up and form a general System or Plan of Regulation, and recommend it to the several States, in Terms as forcible as the Necessity of the Case will bear, we have the most pleasing Apprehensions that it will, without Delay, take Place in the fullest and amplest Manner.

It is impossible indeed for us to entertain so unfavourable an Opinion of the Justice or publick Virtue of our Sister-States, as to doubt their Compliance; for although artful designing Men may raise plausible Objections against any Measure, however wise or essential to the publick Safety it may be, and indeed are accustomed so to do, whenever a Measure is proposed that happens to thwart their or their Connections, Views of Interest or Ambition, yet the Necessity of this we now propose, is so obvious and exceedingly pressing, that if Congress should put it in the Line of Success we have mentioned, we think no State, or even Individual (not greatly deficient in publick Virtue and common Honesty) can think of opposing it.

It may however be objected, in order to prevent its being taken up, that as several of the States refused or rather declined to regulate under a former Recommendation of Congress, it is not supposed that they will now come into the Measure: But this Objection we presume will appear to have but very little Weight when it is considered, that, at the Time when that Recommendation went forth, the Necessity of a Regulation did not appear one thousandth Part as evident and pressing as it now does. Multitudes who were then strenuously opposed to the Measure, are now as anxious to see it take Place. They are convinced that Taxation, during the Continuance of the War, without a Regulation of Prices, will be more likely to increase than diminish the Disease we complain of. Every Vender, say they, will raise upon the Articles he has for Sale, in order the better to enable him to pay his Tax, and thus Prices will go on rising, our Money depreciating, and our Debt increasing, until we become a ruined and a wretched People.

With Regard to the Mode of regulating, we would beg Leave to observe, that if Prices should be fixed at any certain Standard, not to descend, we fear it will answer no very valuable Purpose.

Those who would wish to break through the Regulation will only need to withhold what they have for Sale, and the Business will be done, the Scarcity will soon compel the Publick to yield to their Avarice; nor will they run any Risk of Loss in withholding, the Chance will be altogether in their Favour: But if Prices are reduced by moderate and regular Gradations, and at certain short Periods, the Case will be different; this will

will operate like a falling Market, it will induce People to exhibit what they have to spare, in order to avoid the Loss that must necessarily attend a contrary Conduct, and perhaps to take less than even the regulated Prices, thereby to quicken the Sale of their Goods: Thus will many Articles become plenty that now appear scarce, our Money daily appreciate, and our Expences diminish, until the publick Credit is again restored, and our Affairs fixed upon a safe and permanent Footing.

Farmers, and every other Order of Men will exert themselves to get Something to sell, because they will expect to receive Something for it of Value.

Having thus set forth some of our Ideas and Apprehensions, respecting the present State of our Money, and what we conceive is further to be expected, unless Something spirited is done to check the current of Depreciation; we shall now conclude with intreating Congress once more to take the Matter up, and use their utmost Endeavours to set on foot, and extend through the Union, a general Regulation of Prices.

(Circular)

*To the Honourable the Legislature of the State of*

GENTLEMEN,

THE Legislative-Council and General Assembly of the State of *New-Jersey*, beg Leave to congratulate you on being so far advanced in the fourth Year of our Independence, on the many Successes of the present Campaign, and the glorious Prospect we now have of putting a speedy and happy End to the present distressing and unnatural War, and of settling our Liberty and Independence on a firm and lasting Basis. Nothing seems to be now wanting to effect this, but Virtue among ourselves. We are sorry to be obliged to observe, that amongst all those flattering Prospects, Ruin seems to be rushing down upon us from another, from a once unsuspected Quarter.

The amazing Depreciation of the Continental Money, for a Year past, is truly astonishing, and threatens us with inevitable Destruction, if a speedy Stop be not put to its rapid Progress; for it is a Truth too self-evident for Infidelity itself to doubt, that if the Depreciation should continue in the same Proportion but a little longer, our national Debt will exceed all Computation, and what is perhaps yet worse, the Money will cease to circulate, and our Army must either be disbanded, or reduced to the Necessity of carving out their own Subsistence: In either Case Consequences must ensue, which make us shudder but to think of.

Many are the Schemes proposed for preventing so fatal a Catastrophe; publick Loans, Taxation, and a general Regulation and Limitation of Prices, we look upon as the most likely to have the desired Effect: Loans may prove a useful temporary Expedient to supply the present Exigencies; Taxation is in its Nature slow, and its Effects require Time to be sufficiently felt; in Aid of which, we would therefore propose a general Regulation and Limitation of the Prices to be taken for every Kind and Article of Labour, Manufacture and Trade, either by ascertaining the Number of Prices current at some past Period, to be a Standard for the Future, or by particularizing at what Rates the most material and necessary Articles of Life shall be sold; and also the Profits to be made on all Articles imported. This we conceive to be the only immediate and safe Method of stopping that Torrent, which threatens shortly to overwhelm us. Many and great Struggles have, at different

Times, been made in various Parts of the Union to effect this desirable Purpose, all of which being partial, have fallen short of the End proposed, which, we conceive, they must ever do, unless the Matter becomes general throughout the States; to accomplish which we have represented the Utility, the Urgency, and even the Necessity of the Measure, to Congress, requesting them to adopt, and recommend to the several States they represent, some general and equitable Plan for that Purpose; hoping, that if you see the Matter in the same Light in which we view it, you will join with us in a similar Representation; and that you will communicate to the Legislature of this State, your Sense and Determination on so important a Subject; and likewise any Plan which you may have adopted, or shall adopt for so salutary a Purpose.

If an Application to Congress should not appear to you eligible, or when made, should not have the desired Effect, we stand ready to join with you in any other Measure, which may be adequate to the End proposed.

We wish you to communicate to us, as soon as possible, your Sentiments, and may expect at all Times to find the same Readiness in,

GENTLEMEN,

Your assured Friends.

That the said Commissioners sold at *Middletown* fourteen Plantations or Tracts of Land, not only on a stormy Day, when but few People could be expected to attend, but by an early Hour in the Afternoon, and some of them greatly under their saleable Value, though they might agreeable to their own Advertisements, have continued the Sales from Day to Day, and thereby perhaps have greatly promoted the Interest of the State.

4th. That the said Commissioners pretended to sell by the Watch or Minute, though in some Instances they took Bids and struck off Lands after the Expiration of the Time limited; yet in other Cases, the Lands were struck off and the Sales declared while the People were bidding very fast.

6th. That the said Commissioners sold the Personal Estates of several Persons in a Lump, without letting the People know the Particulars of which they consisted; the Impropriety or Illegality of all which Conduct we beg Leave to submit to the House for their Consideration and Determination thereon.

A Message from the Council by Mr. *Deare*.

*Council-Chamber, October 4, 1779.*

THE Council having taken into Consideration the two Messages from the House of Assembly of Saturday last, by Mr. *Van-Cleve* and Mr. *Chambers*; one relative to authorizing *Ezra Kelsey* to draw from the Treasury any Sum not exceeding *Forty-five Thousand Pounds*, &c. the other relative to authorizing the Governor to call out two Light-Horse Men to carry his Dispatches, &c.

*Resolved,*

That the House concur in the Resolutions therein contained.

A Memorial from sundry Officers of the Detachment of Militia raised in Virtue of the Act, intituled, *An Act to embody, for a limited Time, One Thousand of the Militia*, &c. was presented and read, setting forth that they look upon themselves entitled to the Allowance made to the Continental Troops, by a Resolve of Congress of the 18th of *August* last, which the Paymaster hath refused to pay, and praying the Determination of the Legislature, whether the said Allowance is to be extended to them; whereupon

*Resolved unanimously,*

That it is the Opinion of this House they are not entitled to the same.

Mr. *Wilson*, from the Committee appointed for that Purpose, reported the Draught of a Reply to His Excellency's Answer to the Representation of this House, as follows:

*To His Excellency the GOVERNOR and the PRIVY-COUNCIL.*

ON the Governor's Answer to the Representation of this House, we beg Leave to observe—That the Distribution therein set forth appears

pears to be just, had it taken Place; but must confess we are surprized to hear that the Privy-Council has had no further Agency, as the Disposal of those Troops was by the Law expressly committed to them, in Conjunction with the Governor:

That the Appointment of Lieutenant-Colonel *Taylor*, being entirely unwarranted by Law, is a Measure this House can by no Means approve of; and was, in our Opinion, unnecessary, as was the stationing the Major (designated by this House as an Assistant to the Colonel) at *Newark*, a Circumstance no doubt very humiliating to him, having scarcely a Captain's Command:

That the Disposal of those Troops has been left to the Direction of Colonel *Taylor*, is confidently asserted, and seems to be supported by His Excellency's Answer: This appears the more extraordinary, as Colonel *Fell's* Appointment in the said Regiment was previous to that of Colonel *Taylor*, and his "Character for Prudence and Impartiality" equally "known;" be that as it may, that a Trust reposed in the Governor and Privy-Council should be transferred to any other Person, however unexceptionable his Character may be, is what we cannot account for, nor do we think the Deficiency in Numbers, or Sicknesh of the Men, a sufficient Reason for detaining so many at one Post, as the Directions in the Law will apply equally to a small as to a large Number; and the Sicknesh appears, by Colonel *Taylor's* own Letter laid before the House, to be in a great Measure owing to the Want of proper Quarters.

A late Proposal from the Council of enlisting more Men for a Guard to be stationed at or near *South-Amboy*, sets the Inequality of the Distribution in a yet stronger Light, as a Number of Men, more than sufficient to have kept up the Guard at that Post, were taken from the Neighbourhood and ordered elsewhere.

As the Answer given to the Representation made by this House does not, in our Opinion, contain any sufficient Reasons for the present unequal Disposition of those Men, we take the Liberty to request that one Company of the said Troops may be ordered to *South Amboy*, and that in general they may be stationed agreeably to the Law and the Design of the Legislature.

*Ordered,*

That the Speaker do sign the same.

*Ordered,*

That Mr. *Clark* do wait on the Governor with the said Reply.

The Bill, intituled, *A supplementary Act to an Act, intituled, An Act to raise the Sum of One Million of Pounds, in the State of New-Jersey*, was read the second Time, and amended in the House;

*Council-Chamber, October 6, 1779.*

THE Council having taken into Consideration the Message from the House of Assembly of this Day by Mr. *Foster* and Mr. *Hand*, relative to Lieutenant-Colonel *Taylor's* Pay,

*Resolved,*

That the House concur in the Resolution therein contained.

*Ordered,*

*Council-Chamber, October 6, 1779.*

THAT Mr. *Condict* wait on the House of Assembly and acquaint them that the Bill, intituled, *A supplementary Act to an Act, intituled, An Act to raise the Sum of One Million of Pounds, in the State of New-Jersey*, is passed by this House without Amendment.

A Message from the Council by Mr. *Cooper*.

*Ordered,*

*Council-Chamber, October 6, 1779.*

THAT Mr. *Cooper* do carry the Bill, intituled, *An Act for raising the Fines and Fees of Constables*, to the House of Assembly, and request their Concurrence therein.

Which Bill was read, and referred to the next Session.

Whereas His Excellency the Governor, by and with the Advice and Consent of the Privy-Council, did, in Pursuance of the Directions of an Act, intituled, *An Act more effectually to apprehend and bring to Justice Persons charged with certain atrocious Offences against the Peace of the State*, issue a Proclamation promising the Reward of *Five Hundred Pounds* for apprehending a certain *Lewis Fenton*, a notorious Felon in the County of *Monmouth*, so that he should be legally convicted of the Crimes wherewith he stood charged : And whereas it is represented to the Legislature that some Persons, encouraged by the said Proclamation, have lately, in attempting to apprehend the said *Fenton*, been under a Necessity of killing him, by which Means the Conviction of the said *Fenton*, agreeably to the Tenor of the said Act, is become impracticable, and the Reward cannot be paid without the Concurrence of the Legislature ; therefore

*Resolved,*

That His Excellency the Governor, on proper Proof of the Fact being made to him, be authorized to draw his Warrant on the Treasurer for the Sum of *Five Hundred Pounds* in Favour of the Person or Persons who may have killed the said *Fenton*, or of any Person properly authorized to receive the same on his or their Behalf.

*Ordered,*

That Mr. *Drake* and Mr. *Cripps* do carry the said Resolution to the Council, for Concurrence.

The

The House having taken into Consideration the Message from the Council of the second of *October*, by Mr. *Condict*, respecting a certain Instrument of Writing purporting to be a Charter of Incorporation of the *First-day Baptist Church*, in the Township of *Hopewell*, in the County of *Cumberland*, and the Resolution accompanying the same;

*Resolved unanimously,*

That this House cannot concur in the said Resolution for the following Reasons:

1st. Because it does not appear from the Minutes of the House of Assembly of *March* 1778, or at any Time within that Year, that any Application was made, or any Petition presented by any of the Inhabitants of the County of *Cumberland*, for a Charter for certain Privileges to be granted to the *First-day Baptist Church* in *Hopewell*, in said County, as stated in the Preamble of the said Resolution of Council, much less that there ever was any Doubt in the House of Assembly whether the Power of granting Charters was vested in the Legislative or Executive Authority, as seems sufficiently evident from an Extract from the Minutes of the House of the second of *October* 1777, unaccountably omitted in the printed Journals, but copied *verbatim* from the Original, as follows:

“ A Petition was presented from the *First-day Baptist Society* in *Hopewell*, in the County of *Cumberland*, praying, for Reasons therein set forth, a Law for Incorporation of the said Society; which was read; and, on the Question,

“ *Ordered,*

“ That the Petitioners have Leave to bring in a Bill for that Purpose.”

2d. Because the Words in the Preamble to the said Resolution, *viz.* “ And the present Legislature having maturely considered the Constitution and Origin of the present Government, are rather of Opinion that the Right and Power of granting Charters is vested in, and of Consequence must ever remain with, the Representatives of the People,” seems to imply Uncertainty and Doubt on that Subject, whereas this House is clearly of Opinion that the Right and Power of granting Charters is unquestionably vested in the Representatives of the People.

3d. Because this House is not conscious of any Impropriety in their Undertaking to determine the Matter in Question at this Time, as whatever may have been the Case in Council, the House of Assembly was by no Means thin when the Resolutions of the 29th of *September* last were sent from this House to the Council for their Concurrence, there being at that Time more than thirty Members present. And

Lastly. Because there does not appear to this House the least Necessity of recommending the Consideration of a Matter to the next Legislature which may, without Impropriety, be determined at this Time.

*Ordered,*

That Mr. *Shreve* and Mr. *J. Schenck* do carry the said Resolution to the Council, and acquaint them therewith.

The Bill, intituled, *An Act for defraying sundry incidental Charges*, was read the second Time, and amended in the House;

*Ordered,*

That the same be engrossed.

The House adjourned till To-morrow Morning nine o'Clock.

*Thursday,*

*Thursday, October 7, 1779.*

The House met.

Mr. *Drake* reported, that Mr. *Cripps* and himself delivered the Resolution with them entrusted to Mr. *Holmes*, one of the Members of the Council, the Council not sitting.

Mr. *Shreve* reported, that Mr. *J. Schenck* and himself had delivered the Resolution with them entrusted to Mr. *Tallman*, one of the Members of the Council, the Council not sitting.

*Resolved,*

That the Treasurer of this State be authorized and directed to pay to *Zachariah Rossell*, of *Mountbolly*, the Sum of *One Thousand Three Hundred Pounds*, for Articles purchased and Service done by the said *Zachariah Rossell*, in Pursuance of his Appointment of the first of *May 1779*, he to be accountable, whose Receipt shall be a sufficient Voucher to the Treasurer in the Settlement of his Accounts.

The Representation to Congress, was read and compared ;

*Ordered,*

That the Speaker do sign the same.

The engrossed Bill, intituled, *An Act for defraying sundry incidental Charges*, was read and compared ;

*Resolved unanimously,*

That the same do pass.

*Ordered,*

That the Speaker do sign the same.

*Ordered,*

That Mr. *Townsend* and Mr. *P. Schenck* do carry the said Bill to the Council, and request their Concurrence therein.

Mr. *Thomson* reported, that Mr. *Smock* and himself had delivered the Resolution with them entrusted to the Vice-President in Council.

Mr. *Townsend* reported, that Mr. *Schenck* and himself had obeyed the Order of the House.

Two Messages from the Council by Mr. *Sinnickson*.

In

In Privy-Council, October 7, 1779.

To the HOUSE of ASSEMBLY, on their Message of the 5th Instant: Directed to His Excellency the GOVERNOR and PRIVY-COUNCIL.

THE Board beg Leave to observe, that we cannot account, nor do we think we are answerable, for the Surprize of the House, so soon after they acknowledge the Distribution of the Troops being the only one made to be just; especially as we conceive no further Agency of the Privy-Council was by Law required, unless the Movements of the Enemy, or some other material Alteration of Circumstances, which has not yet appeared, had rendered the same necessary.

The House in their second Paragraph have pre-judged the Appointment of Lieutenant-Colonel *Taylor* to be unnecessary, without knowing the special Reasons that induced the Board to make the same; although it has been suggested to several Members of the House, that such did at the Time exist, in order that if any Doubts arose on the Subject, an Opportunity might have been had for obviating such Doubts.

If the Assembly had any Design of stationing a Major, other than what the Law expressed, they should at least have made it known, that their Dictates, if consistent with that Discretion by Law vested in the Board, might have been followed.

And if there has been, or now is, any unequal or illegal Distribution of the Troops, as suggested in the Message, it must arise from Causes to us unknown, and if any Fault on the Occasion, it remains with those who have the proper Information thereof.

*By Order of the Board,*

BOWES REED, *Secretary.*

Mr. *Sebring*, from the Committee of Conference appointed this Day, reported as follows, *viz.*

YOUR Committee appointed to join a Committee of Council in a free Conference on the Subject-Matter of a circular Letter to the neighbouring States, having met and considered the Matter to us referred, beg Leave to report—That the Conferrees recommend to the Council to agree to so much of the second Amendment made by the Assembly to the circular Letter, as to strike out the Words *with you* in the twentieth Line of the second Page of the said Letter, and that the Assembly recede from all the Rest of the said Amendments.

BY VIRTUE of an ORDER of the GENERAL ASSEMBLY of the STATE of *New-Jersey*, I DO hereby appoint *Isaac Collins*, of *Trenton*, to print these Votes.

CALEB CAMP, SPEAKER.

Copy of a REPRESENTATION to CONGRESS, omitted in the Minutes of the last Sitting.

To the UNITED STATES in CONGRESS ASSEMBLED.

The REMONSTRANCE and PETITION of the LEGISLATIVE-COUNCIL and GENERAL ASSEMBLY of the STATE of NEW-JERSEY;

*Sherweth,*

THAT by a Resolution of Congress of 16th *September*, 1776, when the Establishment of the *American Army* was formed, the Appointment of all Officers and filling up Vacancies, except General Officers, was left to the Governments of the several States.

That since the acceding of this State to the Confederation, we had apprehended this Right was rather confirmed than otherwise, as far as related to the Troops of the State; the 7th Article reciting, that when Land-forces are raised by any State for the Common Defence, all Officers of, or under, the Rank of Colonel, shall be appointed by the Legislature of each State respectively, by which such Forces shall be raised, or in such Manner as such State shall direct, and all Vacancies shall be filled up by the State, which first made the Appointment.

That, conformable to this, we conceive was the Meaning of Congress in their Resolution of the 8th *March* last, prescribing the Mode of commissioning Officers appointed by the respective States, with the Directions of which this State cannot comply, as no Notices are given of Vacancies happening in the respective Corps of Officers appertaining to it.

That Officers are, from Time to Time, appointed, and Vacancies filled without the Agency or Participation, or even the Knowledge of the State; and we are constrained to mention particularly a late Arrangement of the *New-Jersey* Brigade, in which, while some Officers who deserved well were of Necessity left out as supernumerary, others were unnecessarily left out, and new Creations and Promotions made, by what Authority we know not. That we are ignorant by whom these Appointments and Promotions are in any Case made; and cannot with Indifference be deprived of what was intended as a Right and Privilege; nor can we acknowledge, as Officers, Persons who must be irregularly and illegally made so.

It is therefore our Prayer that Congress will interpose their Authority, to prevent such Contraventions of their Arrangements, and direct that due and regular Notices of all Vacancies be given to the Governor of the State, to be by him communicated to the Legislature, in order that proper Regard may be paid to the Intentions of Congress, and the Rights of the State.
